Master's degree course at the Agricultural University – Plovdiv (Bulgaria), thesis in the field of Agricultural Economics, PhD degree in Economic Sciences in the field of Economics at the Institute of Agricultural and Food Economics – National Research Institute (Warsaw, Poland), Doctor of Science degree at the Agricultural University – Plovdiv (Bulgaria), Faculty of Economics (Department of Management and Marketing), 2014 –Professor of the Institute of Agricultural and Food Economics – National Research Institute (Warsaw, Poland).

My scientific work has subjects related to: analysing developments in the socio-economic structure of rural areas; studying the aspects of the rural labour market and the situation of women in rural areas in Poland; issues regarding the use of CAP support schemes. Recently, my scientific research activity has primarily concerned the issues of human capital development in rural areas in Poland and developments that have occurred in this area after Poland's accession to the EU, both in the country and compared to other European countries.
